

Installation Guide for Magento 2.x

Testimonials Extention for Magento 2

There are 2 different ways to install extention

1. Copy and Paste
2. Composer Command

Copy and Paste

1. Unpack the extension ZIP file on your computer.
2. Connect to your website source folder with FTP/SFTP/SSH client and upload all the files and folders from the extension package to the corresponding root folder of your Magento installation
3. To complete the installation process, we need to run the following command lines

```
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

Composer Command

To complete the installation process, we need to run the following command lines:

```
composer require yereone/module-testimonials  
php bin/magento setup:upgrade  
php bin/magento setup:static-content:deploy
```

Note - Testimonial extension depends on our base module Yereone_Core. When you want to install it by composer, be sure that you have not already installed Yereone_Core module.
